Authorized Dealer:

The TrailMax Light Tiltbed Series offers a broad range of uses for hauling track machines and wheel type equipment. The user friendly design provides the quickest and most convenient way for loading and unloading equipment safely. It features multiple anchor points for securing the load for transport.

At TrailMax we pride ourselves on building quality equipment trailers that provide...

Maximum Performance
Maximum Reliability, and
Maximum Return on Investment

Features & Benefits

Also available in Gooseneck Style

Cushion Cylinder for Load/Unload Control

Lockable Storage Compartment in Tongue Area

Over-Center Type Latch Assembly w/Tension Adjustment

Step for Easy Access on and off the Trailer Deck

Stake Pocket/Chain Slot Provide Diverse Load Securement Options

The TrailMax Advantage

Superior Quality – TrailMax trailers are built to last. From the conception in the design process and throughout the manufacturing, every step is taken to ensure durability for years of rugged use. All of our trailer are designed with the end-user in mind.

Construction – Unlike conventional I-beam or channel iron construction, TrailMax trailers are engineered with top quality tensile steel construction throughout. With steel components designed to maintain consistent tolerances to assure accuracy during the assembly process.

Components – Major brand name components are used in the manufacturing process. Components that live up to the demands and performance we expect from each of our TrailMax products.

Quality Assurance – TrailMax Trailers maintains the highest quality standards in the industry. Process controls are maintained to assure consistency throughout the manufacturing process. Periodic testing is performed to assure that standards are met while constantly identifying opportunity for continual design and process improvement.
